

To whom may be of concern.

This is to certify that IOORS International has responded to DALIA FPSO Project Technip France requests in due time as soon as the FPSO was reaching the harbour of Cape Town while in tow from South Korea.

IOORS International could provide high quality Site HSE Managers, HSE Officers and SIMOPS Engineer, all this staff contributed to achieve a safe work until the completion of all offshore works (Hook Up, Commissioning and Start Up) on board the DALIA FPSO and the Flotel / HUC Barge Ayang 2.

The Client Total has recognised the quality of the Technip Team and has testified its satisfaction at several occasions.

Thanks to IOORS International professionalism, all logistics problems could be solved and the whole team could travel safely.

The contracts with IOORS International HSE staff started in May 2006 and terminated in May 2007.

Done in Paris La Défense on the 14th of May, 2007.
